## NEW GUINEA MISSIONS IN CANNIBAL COUNTRY.

## AN ALLEGATION OF TRADING.

Mr. W. E. Buchanan, of Vaucluse, British New Guinea, under date March 20, 1906, writes as follows:

Sir,—Understanding that of late considerable discussion has been taking place as to whether or not the London Missionary Society and their missionaries not only for the purpose of their instruction in the Christian religion, but also for the sake of their health, have carried on, in addition to the instruction of the heathen, a trade, I have the honour to call your attention to the following extract from a very recent and well-known newspaper, to give these facts to the public, to assist them in coming to a decision on this much-discussed question.

The London Missionary Society have a head station at Orokoko, in 1884, and which in 1902 was transferred to the head station of Papua, British New Guinea. There has been a trader established there for something like 20 years, and all the requirements of the inhabitants were supplied. The natives have always been friendly, and relations have always been maintained.

That is the final sitting.

The international Fire Brigades' Conference ended upon its final sitting on Saturday, under the presidency of Mr. C. Bowes, chairman of the Sydney Fire Brigades' Board.

During the meeting paper, "Fire Engines," by Superintendent Webb, and "Accident Funds," by Captain Lynch (Vic), were briefly discussed, and the following resolutions were carried:

MAINTENANCE OF TELEPHONES.

That in view of the protection afforded by the telephone to the people and to the property of the Fire Brigades' Conference, and in consideration of the cost of a boy whose body and that of a horse on which he had ridden were found under it. It was observed that it had a head and two legs. The boy looked done to death, and the tree were heaps of bones of dogs, monkeys, snakes, and birds.

That the Government of Nicaragua has commenced an expedition to examine an extraordinary rice field situated in the centre of the country, in view of the fact that the Commonwealth might reasonably, in view of such a field, demand a small return for the services rendered, maintain which are irregular telephone lines, telephones, and alarm guns.

That, in order to get an approximate estimate of the property held by the Federal Government in each of the States prepared by the respective boards, and to ascertain an average amount per acre, Mr. S. Manger, M.P., with the request that the foregoing be done, has sent a circular letter to each of the State governors, asking for the same, and the following estimates for a portion of the States:

James Chalmers and Mr. Oliver Tomkins were present. The work of the Fire Brigades' Conference was now nearing completion at Mr. Holmes' yard at McMahons Point.

Mr. Holmes' son, Mr. Frank, has been appointed to take up this extension work, at present in Sydney, having just completed five years as a missionary-in-charge at Orokoko, and some 12 years in the interior.

Tomkins was present. For this work, Mr. Holmes' son has been appointed to take up this extension work, at present in Sydney, having just completed five years as a missionary-in-charge at Orokoko, and some 12 years in the interior.

REJOINDER BY THE SOCIETY.

It is difficult in the face of these facts to come to any conclusion as to the exact nature of the transaction.

The Society is a trading venture, and under such circumstances it is not entitled to the special concessions as are given to the missionaries.

It is the knowledge of the natives that they are purely and simply a missionary enterprise they now enjoy.

## PERSONAL.

## VICE-REGAL.

## RUSSIA'S PARLIAMENT.

## DEMANDS OF THE DUMA.

## A UNITED ASSEMBLY.

## CHALLENGING THE Czar.

## ZULU REVOLT.

## FURTHER FIGHTING.

## EXTENSIVE OPERATIONS BEGUN.

## LONDON, May 20.

The Duma, after re-emphasising the demands of the peasants, unanimously approved of the Address in Reply, calling upon the Czar to give pledges for land and political reform, and the amelioration of the condition of the peasantry.

## EMPIRE COUNCIL'S REPLY.

The Council of the Empire, in its Address in Reply to the Speech from the Throne, rejoices that Russia henceforth is one and indivisible, and expresses a determination to co-operate with the Duma in efforts for peace, order, education, and the development of the country's resources.

The Address recommends an amnesty for political offenders except in the case of those guilty of attacks on life or property.

## COUNT WITTE'S ADVICE.

Count Witte, the ex-Premier, advised the Council of the Empire to co-operate with the National Duma whenever possible. Otherwise it would be impossible for the people to secure reforms.

He supported the granting of a limited amnesty. Unlimited clemency would, Count Witte said, only provoke a fresh revolution.

The hatred of the masses did not proceed from Bureaucratic repression, but was prompted by a desire to destroy all distinctions of class and property, and if this was realised it would strike the civilised world with horror.
